Continuation of Substance of Interview including description of the general nature of what was discussed: It was noted to applicant that the body of the instant claims read on any tower and was not specifically drawn to an optical draw tower. Applicant thus agreed to amend claim 1 to include the limitation that the claimed optical draw tower comprised at least one of a preform feed unit, a furnace, a spinning nozzle, a diameter gauge, and a coating unit. The same changes to claim 7 were made and to further distinguish the preamble from the body of the claim.
